PRESIDENT'S MESSAGE

Still Life with Road Runner and Coyote
Membership Show Ken McGowan

A Tug at My Heart
Membership Show Annie Strack

The entries for the Membership Show seem to be in and they are a very nice representation of our group. The members that did enter are the same members who are always at the meetings and helping to keep SCWS going.

The pandemic has taken its toll on many organizations and how they do things. Ours is no exception. The size of our group was increasing very nicely and then the pandemic came in and some of our members decided not to re-join. Some of the main reasons I heard was because we could no longer do in-person demo's, or we don't have our meetings and our luncheons and critiques. I can understand that, but as I said, those of you who have participated faithfully within the past couple of years are very much appreciated. You are the heart and soul of SCWS. Even though we are now a small group of about 26, (about 20) come to the meetings and participate in our events. These are the members that want to keep SCWS going in one way or another. The size and structure of our group may change in different ways in the future, but we can all decide together what changes are needed and how to move forward from here. I've been a member since 2004 and I along with others have fought to keep SCWS going. So, I hope our **faithful membership** will continue to support and get SCWS thru this rough time and be here when it's time to bring our meetings to order again!

I talked with the library today. They are not opening to groups just yet, but they want us back and I know we want to be there. Not before 2021, but they said our room is reserved and ready for us and want us back. I know we would like that too. They also asked if we could do a show next year! I've shared a few pieces of the artists that have entered the membership show.

Good luck to everyone that entered!

The winners will be announced on November 1st
